* The possibility of the above-mentioned exemption and exception from paying the tuition fees for international students or second-degree students does NOT apply to these general semester fees. They need to be paid each semester by every student.

** International students who pay tuition fees of €1,500.00 per semester are not required to pay tuition fees for second-degree studies. Tuition fees for second-degree studies for international students are charged if there is an exemption from international tuition fees and it is a second degree program with costs.

*** Some international students may be exempt from these tuition fees. Information about this can be found [here \(https://www.intl.kit.edu/istudies/12606.php\)](https://www.intl.kit.edu/istudies/12606.php).
